# **SIGA**

## **POLYTECHNIC COLLEGE**

No. 49, Taylors Road, Kilpauk, Chennai -10

## **Vision of the Department:**

To nurture Virtue, Knowledge and Art in Print Media.

## **Mission of the Department:**

### **M-1: Academic Excellence**

To facilitate with competitive curriculum accepted by the print industry.

### **M-2: Hands-on-Training & On-the-Job Training**

To provide state-of-the-art facilities for upskilling in print technology.

### **M-3: Skilling the Youth of India**

To enhance the skills of the youth by conducting short-time courses and matching the market demands.

### **M-4: Industry Institute Partnership**

To associate and partner with the industries and institutions in India and abroad for the welfare of the students and alumni.

## OBJECTIVE

The objective of NBA-SAR preparation is to ensure that the institution is in compliance with the National Board of Accreditation (NBA) criteria for diploma programs.

The following are some of the specific objectives of NBA-SAR preparation:

1. To ensure that the institution's diploma program meets the NBA criteria
2. To identify areas where the institution can improve its diploma program
3. To provide a comprehensive overview of the institution's diploma program to the NBA
4. To prepare the institution for the NBA accreditation visit

The NBA-SAR preparation process can be a complex and time-consuming one. However, it is an important step in ensuring that the institution's diploma program is of the highest quality.

## OUTCOMES

NBA - SAR Preparation was to provide participants with the knowledge and skills necessary to prepare a Self-Assessment Report (SAR) for the National Board of Accreditation (NBA).

At the end of the workshop Participants were able to:

1. Identify the NBA's accreditation criteria and how they apply to their program.
2. Analyze data to support their claims about the quality of their program.
3. Concise SAR that addressed all of the NBA's requirements.
4. Participants were able to present their SAR to the NBA evaluation team in a professional and effective manner.

The workshop was well-received by participants and was considered to be a valuable resource for preparing for the NBA accreditation process.

**National Institute of Technical Teachers Training & Research (NITTTR),  
Taramani, Chennai – 600 113**

**“NBA Accreditation and SAR Preparation”**  
Venue – SIGA Polytechnic, Chennai

Day & Date	Forenoon (9 am to 12.45 pm)	Afternoon (2 pm to 4.45 pm)

## Hail Don Bosco

### About SIGA

In 1947, in the small town of Tirupattur in Vellore District, the Salesians of Don Bosco started a workshop with carpentry, mechanics, welding, metal works and a small printing press. In 1950, all these machines except the printing press, were shifted to Basin Bridge in Chennai in order to start a new technical school with the name St. Joseph's Technical Institute. Two Years later, in 1952, the printing press was brought to Basin Bridge to start a school of printing. At this stage it must also be mentioned that this was the only one among a chain of academic and technical ventures that our pioneers like Msgr. Matthias, Archbishop of Madras, and Fr. Jose Carreno, Provincial of the Salesians in South India, had envisioned, half a century ago, as the Salesian answer to the problems of poverty and unemployment among the youth of the country.

The new printing school in Basin Bridge started in a simple little shed with just two students; the strength gradually increased to 20 by the end of the year. In those days, printing was not considered an attractive career. Students were

not willing to join; they had to be coaxed and, at times, counseled to take printing. In 1954, the newly acquired machines were installed and a regular course in Printing Technology was designed, with systematic syllabus in theory and practical. A decade later, in the year 1965, students passing out of SIGA were in high demand. Leading newspaper publishers in India like, The Hindu, The Indian Express, The Madras Mail and other printers and press owners started recruiting SIGA students, As more and more students started seeking admission, there was great pressure on the management to provide better facilities. By the late sixties, due to lack of space and the inconveniences experienced by the students, the entire Printing Department was shifted from Basin Bridge to its present location at Taylors Road in October 1968,

In 1970, SIGA entered the offset age. A brand new offset machine was brought from Italy to teach students the art of offset printing. As on date 3000+ students have been trained and placed in various printing organizations in India and countries like UAE, Canada, USA, Africa and Australia.
